

Proper Fit Sizing Chart

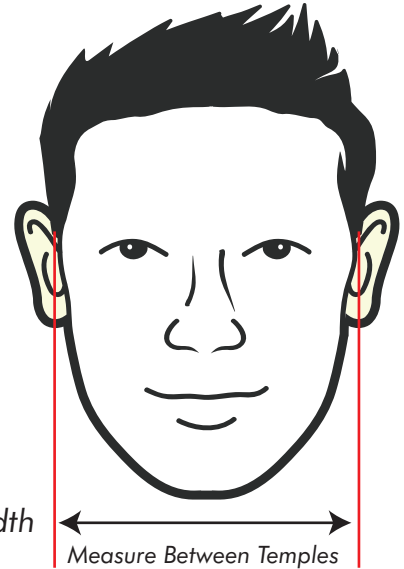

Proper fit is important, there are two measurement guides below, one is for measuring ETP® frames as standard sunglasses and the other, "Fit Over" style for wearing over prescription eye wear. There are three sizes of ETP Sunglasses® (Small, Medium, and Large), each size may be found on a separate listing at Amazon.

ETPsunglasses.com

Standard Sunglasses

For proper fit of ETP Sunglasses®, measure your temples (see diagram right) and select the temple of the frame closest to your measurement.

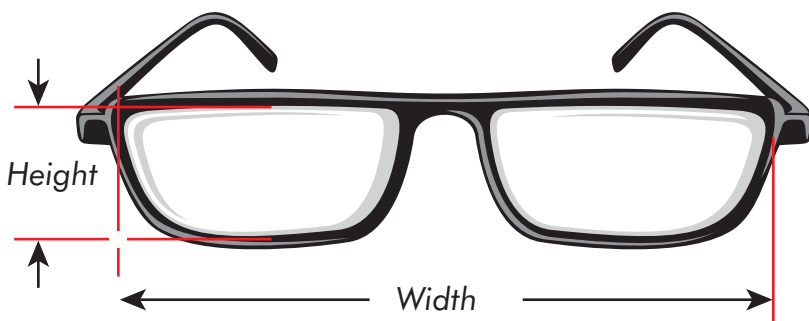

ETP SUNGLASSES®	Temple Width
SMALL	Up To 5-1/4"
MEDIUM	5-1/4" to 5-1/2"
LARGE	5-1/2" to 6"

Wearing Over Prescription Eye Wear

Measure your prescription frames as shown in the diagram below. Based on your measurements, choose one of the three frame sizes below that is slightly larger than your measurements.

For a more accurate fit, a download-able measuring guide (PDF) is available upon request. This PDF is an exact to scale representation of all three ETP® frames for exact fit. PDF documents are not allowed on Amazon, however this may be emailed using the buyer to seller Amazon email system. Please write to the "seller" for a email copy.

ETP SUNGLASSES®	Width	Height
SMALL	5-1/4"	1-1/2"
MEDIUM	5-1/2"	1-5/8"
LARGE	5-5/8"	1-3/4"

This Quarter is at 100%
.953" Round
61/64" Round
24.2 mm Round

**PRINT EACH PAGE AT 100%
DO NOT "FIT TO PAGE"**

The below sizing reference is designed to assist you in finding the ETP Sunglasses® that properly fit over your prescription eye wear. When printing this page, it's very important to not use any scaling or "fit to page" adjustments. The page must be printed at 100% of the actual size. There is a measurement ruler and quarter on this page to verify that you have printed the page correctly.

After printing, simply place your eye wear on each ETP Sunglasses® frame. Also note the curvature on the ETP Sunglasses® frame to your prescription eye wear. If your prescription eye wear frames fit in the box, this size can be used over your prescription eye wear. If your frames are larger than the rectangle box, try the next size up. The best fit will be the ETP Sunglasses® frame that is slightly larger than your prescription eye wear.

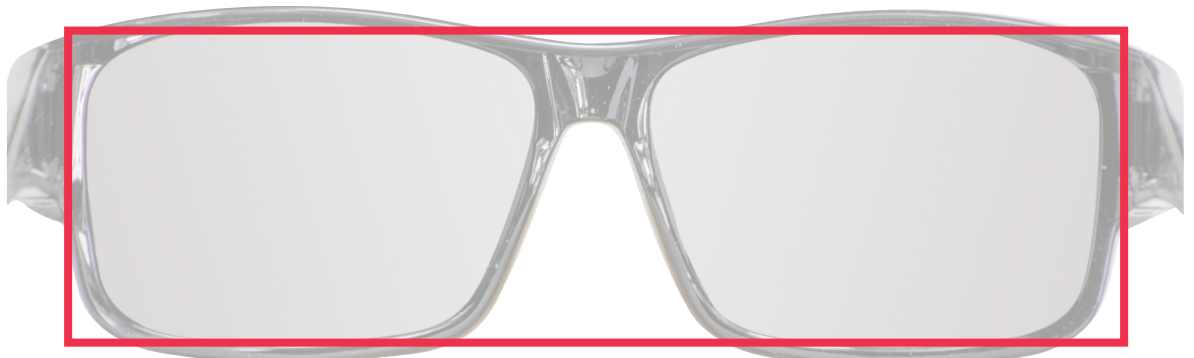

SMALL

Rx Frames
Not Exceeding:
5-1/4" x 1-1/2"
(133mm x 38mm)

MEDIUM

Rx Frames
Not Exceeding:
5-1/2" x 1-5/8"
(140mm x 41mm)

LARGE

Rx Frames
Not Exceeding:
5-5/8" x 1-3/4"
(143mm x 44.5mm)
